AUSTIN LEE

Senior Frontend Developer

@ talenteddev0125@gmail.com   🔗 https://github.com/webtalent0125   📍 Singapore

SUMMARY

Senior Full Stack Developer with 5 years of experience looking to contribute knowledge in web technology. Worked on several companies with great teams, built many large-scale web applications and services. Win-win mode is my main working style. I can help you achieve your goal with my skills.

PROFESSIONAL EXPERIENCE

Senior React Developer

ANSR   📅 2019 - 2020   📍 Poland

ANSR enables enterprises to reimagine business, technology, and workforce transformation through GCCs for accelerating the digital journey.

- Charged with building web applications with React.js, Firebase, Gatsby.
- Front-end developer from the design provided (Figma, XD, PSD).
- AWS web hosting, sever management and maintenance.

Senior Angular Developer

📅 06/2022 - 01/2023   📍 United Kingdom

- Developed and maintained Angular applications for the company's clients, including web apps, mobile apps, and API integrations.
- Collaborated with other developers to implement new features in existing projects as well as develop new products from scratch using modern technologies such as NodeJS/Express, React, Redux, TypeScript, RxJS observables etc.
- Provided technical leadership by mentoring junior developers on best practices related to software development and project management.
- Participated in code reviews of fellow team members' work and provided feedback that helps improve quality across the organization.
- Assisted with design decisions regarding architecture changes or feature additions based on experience with similar problems encountered previously at the company or elsewhere in the industry.

Senior Front-End Developer

📅 02/2022 - 11/2022   📍 New York, NY

- Implemented AWS to allow easy iteration in company cloud infrastructure.
- Rewrote HTML to meet industry and company standards for SEO and Accessibility. This drove a 600% increase in users by appearing on the first page of Google search results.
- Introduced Kanban Board style ticketing system to promote highly efficient asynchronous and synchronous work, increasing efficiency by 12%.
- Utilized HTML, CSS, and JavaScript to create 100+ responsive landing pages for both company and client.
- Maintained graphic standards and branding throughout the product's interfaces.

Full Stack Developer

Ikayzo   📅 Date period   📍 Location

- Developed various perfect websites using React, Vue.js, Angular.js, Node.js, MongoDB and some other cool libraries and frameworks.
- Maintained full product knowledge of menu and specials.
- Managed website deployment, CI/CD on AWS.

Senior Full Stack Developer

Endive Software   📅 2019 - 2020   📍 United State

- Updated the SDK library used by real estate agents using React and TypeScript.
- Developed automated trading strategies on Uniswap and QuickSwap.
- Built various front-end applications for minting and staking NFTs using React and Web3.js.
